- O. What was the warrant in reference to?
- A. We were serving an arrest/search warrant for a homicide at that location.
- Q. Did the warrant specify that there was a dog in the property?
- A. It did not and there were no signs that there was a dog in the residence prior to our arrival.
- Q. Can you tell me everything you know about the incident?
- A. I was the breacher, using the Halligan tool. I was with Officer Eric Clark #4453, who was using the ram. Officer Clark conducted the knock and announce during which time a dog was heard barking. After the breach, I entered the property. I observed a brown Pit-bull dog that was aggressively barking and lunging towards Officer Song. The dog continued to bark and aggressively approaching Officer Song. I observed Officer Song discharge his weapon one time, dispatching the dog. At that point, I continued to secure the front room. Once the team realized there was no entrance to the second floor from the first floor, they proceeded to the rear. I heard over SWAT band that there was a male coming out of the rear door. I remained in the first floor with a female and secured the scene until a patrol officer relieved me.

- A. No. just the dog.
- Q. Where in the property did this discharge occur?
- A. Front room, which was the living room.
- Q. Did you apprehend the suspect wanted on the warrant?
- A. No.
- Q. Was there anyone else in the property at the time of the warrant service?
- A. I only made it to the first floor and the female was the only one home.

Sergeant Mellody, so just to make a clear record, we pulled up on the screen something that would appear to be a surveillance footage clip that's not being played yet. This was produced to us in Discovery by the City of Philadelphia. This particular angle is marked Camera 10. Can you see that? A. Yes. Q. And prior to right now you didn't know that there was any camera footage of this operation; correct? MR. ZURBRIGGEN: Objection to the form. But sergeant; if you know. THE WITNESS: No. BY MR. WEST: Q. And nobody was wearing any body	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	right? A. Correct. Q. And isn't part of the way you breach someone's door, you have someone with a Halligan tool will pull the door open a little bit before the ram goes in? A. No. Q. What's the Halligan tool used for? A. So there's like a screen door. You put the Halligan in the screen door. The ram hits the Halligan. And it puts it in the jam and it rips it back to open the security door. Q. Okay. And so if you have a locked door, wouldn't you use the Halligan to create a little bit of an opening before you have a ram go in? A. No. Q. Okay. What would the Halligan tool be used for here? A. Probably knocking on the door.

We will try 5 5 to be as accommodating as possible, okay? Josh, Officer Burkitt, whatever. 6 6 A. All right. Q. That's okay. If you don't mind, I will 7 7 Q. And similarly, you know, the questions call you Officer Burkitt. 8 are -- I'm going to ask them to the best of my 8 A. It's okay with me. 9 ability in the hope that you understand them. 9 Q. All right. And you're a member of the 10 So if I ask you a question that you don't 10 SWAT team, right? 11 understand for any reason, you know, please don't 11 A. Yes, sir. 12 answer it. Just let me know that you would like 12 Q. In the City of Philadelphia. All right. 13 me to rephrase the question, speak louder, 13 Have you ever been in a deposition before? 14 quieter, rephrase the question, whatever, okay? 14 A. Negative. No. 15 15 Q. That's fine. So just quickly I will go 16 Q. I will be glad to reanswer any question 16 over -- kind of explain the process to you. Your 17 if you have any trouble understanding it, okay? 17 attorney might have done so as well. But your 18 A. Okay. 18 only obligation today is to give truthful 19 Q. I will try to be considerate of your 19 testimony based on what you personally know. So 20 time, because I know you've got a lot going on. 20 please answer the question you're asked truthfully 21 So you were on duty earlier today; is that 21 to the best of your ability. But we are not 22 correct? 22 asking you at any time to guess or speculate, 23 A. Yes. 23 okay? 24 Q. What time did your shift start? 2.4 A. Okay. Page 7 Page 9 1 1 A. My shift started at 11:00 p.m. Q. Like this is not the equivalent to like 2 multiple -- multiple option test where you are Q. Okay. And how long do the shifts you 3 supposed to answer every question. Just let us 3 normally work on, how long are they? 4 4 know what you do and do not know, okay? A. They vary. But no less than eight hours. 5 5 Q. Okay. And right now you're coming up A. All right. 6 6 Q. We do want to know everything you know, towards 12 hours, right? 7 7 though. So if you are able to give an estimation A. Coming up towards what? 8 8 Q. It's almost 11:00 a.m., so you're almost or approximation, please, you know, give us your 9 9 best estimate or approximation, if you have at 12 hours, right? 10 10 A. Yes. partial knowledge of something. Just let us know 11 11 that you're giving an estimate or approximation, Q. Okay. How long have you been on the 12 12 okay? night shift, if that is what you call it? 13 13 A. I have been there since I got to SWAT, so A. Okay. 14 14 Q. You're already following the format about four years now. Q. Okay. And when did you begin on the --15 15 perfectly. But just to make sure you understand, 16 16 you said about four hours. Can you remember more this is similar to a conversation in a lot of 17 17 precisely when you joined the SWAT unit? ways. But we do have a court reporter here. She 18 has to write down everything that we say. So we 18 A. CONTINUATION OF APPLICATION FOR SEARCH WARRANT AND AFFIDAVIT #242513 .

On Saturday, May 22, 2021, at approximately 9:51pm, 15th District and SEPTA Police Officers responded to gunshots in the area of the Frankford Terminal, and observed the decedent, LH, 28/B/M suffering from multiple gunshot wounds to his body on the highway outside of 5223 Frankford Avenue. RPC 1526 transported the victim to Temple Hospital. At 10:10pm, the victim succumbed to his injuries and was pronounced dead by Dr. Santora.

Philadelphia Police Crime Scene Unit personnel measured, sketched, photographed and processed the scene. Investigators located ballistics, blood and a firearm as evidence. A total of twenty three (23) FCCs were located, nine (9) FC 9mm lugers and fourteen (14) OMPC 9mm. one (1) projectile, one (1) lead fragment and one (1) copper fragment.

On Sunday, May 23, 2021 Dr. Chu of the Office of the Medical Examiner conducted a post-mortem examination on the remains of the Decedent, and determined the cause of death to be multiple gunshot wounds and the manner of death Homicide.

Det. Anderson # 822 obtained video surveillance footage from the SEPTA Frankford Transportation Center that captured the shooting death of the Decedent. At approximately 9:49pm this footage depicts a light colored SUV traveling north on Frankford Avenue, and then making a right on Granite Street pulling over. Damage to the driver rear window of the SUV can be observed. The Decedent and another male (DP) are observed walking north on Frankford Avenue. As the males approach the corner of Frankford Avenue and Granite Street (in front of the Rainbow Shop at 5223 Frankford Avenue), the Offender exits the passenger side of the light colored SUV and shoots the Decedent, and the Decedent then collapses on the sidewalk. The Offender is a male with apparent braided hair, shirtless and wearing dark pants with light colored underwear or shorts above the waistband, and dark sneakers with a white logo. The Offender then goes back onto Granite Street. DP initially backs away, but is then observed running to the corner of Frankford Avenue and Granite Street where he fires multiple gunshots (muzzle flashes are observed) east on Granite Street in the direction of the Offender. DP then runs east on Granite Street with SEPTA Police in foot pursuit. (DP was subsequently apprehended at 1600 Pratt Street out of view of the camera)

On Monday, May 24, 2021, the Real Time Crime Center (RTCC) contacted the Homicide Unit in reference to the shooting of LH at 5223 Frankford Avenue. An anonymous tipster called the RTCC with the information that a male known to the tipster as " committed the shooting. The tipster elaborated that Philadelphia Police stopped on the 5200 block of Marlowe Street recently, but that he was not arrested. The tipster told RTCC that a gold SUV and that, at the moment the tipster was on the phone with RTCC, that vehicle was on the 5200 block of Mulberry Street with several bullet holes in it. The tipster provided a Pennsylvania license plate for that vehicle: LHW-2868.

A BMV check showed that PA Tag# LHW-2868 is registered to a 2004 Suzuki belonging to , 4664 Torresdale Avenue, Philadelphia, PA 19124.

Detectives Domenic and Grace performed several checks and found that PPN: 1005293 was stopped by Police on the 5200 block of Marlowe Street on April 5, 2021 (DC# 21-15-24065).

Detective Grace requested an ALPR (Automated License Plate Reader) check for Pennsylvania license plate LHW-2868. The results showed multiple positive results in close proximity to 4664

SCENE

The shooting scene was located in the 15th Police District (PSA 1), Northeast Police Division, a residential neighborhood consisting of two-story row homes, and businesses. The scene was contained inside the private residence located at 4644 Torresdale Avenue, 1st Floor. 4600 Torresdale Avenue is a two-way residential street with vehicular traffic traveling north and southbound, regulated by a traffic light at the northern intersection; parking permitted on the east and west curb lines. The scene was bordered: Margaret Street to the north, Wilmot Street to the south, with Ditman Street to the west and Edmund Street to the east.

Two steps, followed by a small landing led to the front door clearly marked with the numbers "4664" in large black colored sticker-like icons. The white colored, front door was ajar, with minor frame damage, apparently due to SWAT breaching the residence. Walking west through the threshold, a small couch was located along both the north and south walls with a small, oval glass table placed in the middle of the living room area between them. A medium sized, dark brown, male, Pit-Bull dog was located just west of the glass table, with its head facing in a D000003

southeastern direction; dog was deceased, with an apparent bullet wound in the forehead, with blood on the floor around the head, and upper body area. A black dog crate, open, with a dog mat was located in the southwest corner of the room, with a television along the east wall, in front of the east wall window; closed curtains, and television blocked a clear view of the front of the property. The television was on, as was a small lamp that was located in the northwest corner of the room. (The resident, Felishatay Alvardo noted the television was on at the time of the incident but Police personnel turned on the light after the fact.) Continuing west through the residence, a small breakfast bar, with two chairs on the living room side of the room was noted, with a "Ring" Camera device sitting on top of the bar, facing the living room and front door; it was activated. Continuing west past the breakfast bar, the kitchen area followed, leading to a small hallway that led to the bedroom and bathroom. The rear of the property is accessible through a common drive way located on Margaret Street. A small gated, patio area led to a rear door that led to the second floor apartment; no access to the first floor from the rear of the property. Also noted was a "Bling" Camera in the first floor, rear, right window, facing out to the rear patio and alleyway. This camera was also activated.

Felishatay ALVARADO, 31/HF/ DOB, 12/01/1989, 4664 Torresdale Avenue was interviewed by Lieutenant Jason Hendershot #148 on 6/4/2021 at 7:06 AM outside of 4666 Torresdale Avenue in the presence of her sister and legal guardian Yara Alvarado, 34/H/F, D 4/18/1987, 4723 Torresdale Avenue / 4664 Torresdale Avenue. In addition to giving Lieutenant Hendershot verbal consent to video tape their conversation, search their home for purposes of processing the crime scene and recover personal surveillance footage, Felishatay Alvarado stated the following in summary on an audio/video recorded conversation:

Felishatay Alvarado was inside of her home, in the shower when she heard SWAT personnel enter her home by breaking her door. She lives alone and according to her, no other persons were present at the home during the time of this incident. She further stated that she had all of the lights in her home turned off and she heard her dog barking. She stated that SWAT denied her request and that later on, she heard one gunshot. Alvarado acknowledged that her dog was barking and that it did approach the officers. She added that she believed that SWAT officers entered her property in error. Yara Alvarado interjected that the first and second floor of the building function as two separate apartments with two completely different entrances. Yara Alvarado further stated that the first and second floor do not have any shared access points; front entrances leads to the first flood and the rear entrances leads to the 2nd floor.

Yara Alvarado also provided a phone number for their property, Armin Maroli (215-982-0107)

SURVEILLANCE VIDEOS

Surveillance video was recovered from Philly Deli Delight 4670 Torresdale (SW corner of Torresdale and Margaret). The deli is 4 houses north of 4664 Torredale on the same side of the street. Exterior cameras from both the front and rear were recovered and show SWAT lining up and entering the property. The interior of 4664 Torresdale is not visible, and the discharge isnot captured on the video.

PHILADELPHIA POLICE DEPARTMENT

DIRECTIVE 5.7

SUBJECT: SEARCH WARRANTS (PLEAC 1.2.3, 2.7.1, 2.7.2 a,b,c,d,e)

1. POLICY

- A. The determination concerning when a search warrant must be obtained will be based on pertinent legal guidelines and consultation with a supervisor. The advice of an Assistant District Attorney (ADA) should be obtained and adhered to when any questions arise concerning the search warrant procedure.
- B. All search warrants will be obtained and executed by police personnel in accordance with the procedures established in this directive and the applicable rules of Pennsylvania Criminal Procedure (Pa. R. Crim. P. 2001 to 2010) which can be found in the Pennsylvania Crimes Code.
- C. The Application and Affidavit for Search Warrant (75-175) forms will ALWAYS be distributed in sequential order from the distribution point (Police Warehouse) through the issuance of a single warrant to an individual police officer/investigator.
- D. All search warrant applications MUST be submitted to the District Attorney's Charging Unit (DACU) for review prior to submitting to a judge or bail commissioner.
- E. The actual execution of the search warrant and related police actions during a search will be governed by this directive and pertinent legal guidelines, and barring exigent circumstances, will be strictly adhered to by all sworn personnel.
- F. Misstatements, Omissions and Exculpatory Information
 - 1. Under the Fourth Amendment, when applying for a warrant, police officers may not intentionally include misstatements or false statements; or recklessly omit any material facts from the accompanying affidavit of probable cause. Because the Fourth Amendment prohibits this conduct, the Department also prohibits it. Misstatements in or material omissions from a warrant application will damage the criminal case and could subject the investigator and the City to a §1983 federal civil rights claim.

- 2. Regarding omissions, investigators shall include in all warrant applications highly relevant facts within their knowledge that any reasonable officer knows that a magistrate would need to make an independent determination of probable cause. This includes all culpable information as well as exculpable information. Exculpable information includes, but is not limited to:
 - a. any misidentification, inconsistency or failure to identify a suspect by a witness/victim.
 - b. differences in height, clothing or other specifics of the offender from originally reported flash information.
 - c. discrepancies in license tag or vehicle description information initially described by a witness/victim.
 - d. information regarding any past interactions/relationships between the suspect and the victim that could affect a probable cause determination.

2. PURPOSE OF A SEARCH WARRANT

- A. A search warrant may be issued to search for and seize:
 - 1. contraband, the fruits of a crime, or things otherwise criminally possessed; or
 - 2. property which is or has been used as a means of committing a criminal offense; or
 - 3. property, which constitutes evidence of the commission of a criminal offense.

3. PROCEDURE FOR OBTAINING A SEARCH WARRANT (75-175)

- A. To obtain a search warrant, sworn personnel MUST:
 - 1. Have thoroughly investigated a complaint or gathered information as to convince a disinterested party (judge or bail commissioner) that probable cause exists to justify a search.
 - 2. Consult with their highest-ranking supervisor.
 - 3. Prepare a 75-175 as outlined in this directive.
 - 4. Fax a completed 75-175 to the DACU for approval.

- a. The ADA will evaluate, note their approval or disapproval in the margin and return the fax.
- 5. Obtain a Record of Declination form from the ADA if the affidavit is disapproved or significantly modified. A Record of Declination is not needed if the modifications amount to only handwritten notes on the 75-175 for the purpose of strengthening the probable cause aspect of the search warrant.
- 6. Write DACU's approval in the margin and include the ADA's name, date and time.

NOTE: The approved faxed copy returned from DACU will be maintained by the officer/investigator and remain as a part of the discovery package.

- 7. Present the original affidavit and a Continuation Report (75-51), if applicable to a judge or bail commissioner at the Bail Magistrate, Criminal Justice Center (CJC). Testify to the truth and accuracy of the information contained in the affidavit. Ensure that the approved copy is available for review by the judge or bail commissioner.
- 8. Make no corrections, additions, or deletions on any copy of the 75-175 once the judge or bail commissioner has possession of it.
 - a. Search and seizure warrants that have been signed by a judge or bail commissioner will not be voided.

EXCEPTION: Search and seizure warrants that have not been served within the specified period of time, two days from the date of issuance, must be voided.

NOTE: Supplementing a search warrant orally at the time it is signed by a judge or bail commissioner is not acceptable. Under Rule 2003 (b), such oral additions will not be admissible at a subsequent suppression hearing. If relevant facts arise or come to the attention of an officer after the warrant affidavit has already been completed, the new information must be included in the 75-175 or in a 75-51 and sworn to by the officer.

9. When the offense has been previously reported, use the original District Control number in the space provided. Otherwise, obtain a DC number from the district where the search has occurred.

4. PARTICULARITY OF THE SEARCH WARRANT

A. Sworn personnel shall complete all pertinent block headings on the 75-175, including their signature, badge number and district/unit. (PLEAC 2.7.1)

- B. THE PREMISES OR PERSON TO BE SEARCHED AND THE ITEMS TO BE SEIZED MUST BE SPECIFICALLY DESCRIBED IN THE WARRANT SO THAT THE JUDGE OR BAIL COMMISSIONER AND EXECUTING OFFICER HAVE NO DOUBT AS TO WHO OR WHAT CAN BE SEIZED AND WHERE THEY MAY BE FOUND.
 - 1. Description of buildings should include:
 - a. Street name and number (no intersections). When possible, where search will take place (vehicle/building), use exact numerical location.
 - b. Number or stories apartment number.
 - c. Type of construction (brick, wood, etc.).
 - d. Type of property (single home, apartments, twin structure, etc.).
 - e. Particular markings, color, or any additional information which serve to identify that particular premise.

REDACTED – LAW ENFORCEMENT SENSITIVE

- C. The warrant MUST also include the following:
 - 1. Name and/or description of owner, occupant(s), or possessor of the premise or property to be searched.
 - 2. The particular crime that has been or is being committed.
 - 3. What probable cause exists for a search.
 - a. Probable cause is the existence of facts and circumstances that would justify a person of reasonable caution to believe:
 - 1) that an offense has been or is being committed;
 - 2) that the particular person or item to be seized is reasonably connected to the crime; and
 - 3) that the person can be found at a particular place or the item can be found in the possession of a particular person or at a particular place.

REDACTED – LAW ENFORCEMENT SENSITIVE

- 2. Reasons for believing that the item(s) or person(s) are located at the premise specified and why they should be the subject of a seizure.
- 3. Facts known to the officer concerning:
 - a. potential for destruction of evidence and
 - b. potential for the removal of evidence, contraband, etc.
 - c. threats of harm to police personnel should be clearly indicated on the warrant.

CAUTION: The facts and information must be real and cannot be based on simple speculation or on a "hunch" by the officer applying for the warrant.

- 4. If a "night-time" search is requested (i.e., 10:01 PM to 5:59 AM), state why the search should be carried out in other than daytime hours (i.e., 6:00 AM to 10:00 PM). The judge or bail commissioner must specifically note on the warrant (bottom right corner of application) that they are authorizing such a search and sign their name to it.
 - **NOTE**: There is a need for the officer to state additional probable cause to support such a search (e.g., evidence may be moved or destroyed, the threat of serious bodily injury or death, or other exigent circumstances exist).
- 5. The judge or bail commissioner MUST complete the "jurat" or the clause located directly under the probable cause (center right of 75-175) stating when, where and before whom such affidavit was sworn. (Exception: The "jurat" on the 75-175 need NOT be completed by the judge or bail commissioner if a 75-51 is used and its "jurat" is completed.)
 - **NOTE**: As a result, the signature and seal of the issuing authority will appear a total of two (2) times. Once on the bottom section of the 75-175 and once on the "jurat" section of the 75-51 OR twice on the 75-175 ("jurat" and bottom section), if no 75-51 is used.
- E. When additional space is required to complete the probable cause, use a Continuation Report (75-51) regardless of the amount of information supplied. The following steps will be carried out:
 - 1. Type in capital letters in the narrative section of the 75-51, CONTINUATION OF PROBABLE CAUSE FOR WARRANT # _____."
 - 2. Complete the necessary probable cause information.
 - 3. Directly under the last sentence of probable cause and at the bottom of the last page of the 75-51, type the following exactly as shown.

Signature of Affiant	Badge #	Dist/Unit	
Sworn to (or affirmed)	and subscribed	before	
me thisd	ay of	20	-
			_(SEAL)
Signature of Issuing A	uthority		

- 4. The officer (affiant) will affix their signature, badge number and district/unit on the line just completed in Step 3 above.
- 5. Attach the 75-51 to the 75-175.
- 6. Ensure the judge or bail commissioner signs and affixes their seal to the 75-51 on the line shown in Step 3 above.

NOTE: The first page (affidavit) of the 75-51 and 75-175 will be kept by the issuing authority. A copy of the 75-51 will be attached to the corresponding copy of the 75-175, including the "owner-occupant-premises" copy.

5. INFORMATION OBTAINED FROM INFORMANTS OR THIRD PARTIES

- A. Court decisions from both Federal and State Supreme Courts have established the test of the "totality of circumstances" as the standard of review by courts in assessing search warrant applications based upon information acquired through informants and third parties.
- B. Affidavits will be reviewed in their entirety, and significance will be given to each relevant piece of information provided by the informant or third party and not exclusively on their credibility and reliability of the informant or third party.
- C. Credibility and reliability are still significant factors in search warrant applications. Credibility, reliability, as well as all issues relating to the "totality" standard can all be enhanced with an officer's independent investigation and observation and additional corroboration of the informant's and third party's information.
 - **NOTE:** Thorough investigation and analysis is important since informants can intentionally give false and misleading information. Officers can also consult with the on-duty ADA, where appropriate to evaluate these issues.
- D. Sworn personnel must be prepared to verify the informant's past reliability at the suppression hearing and all information placed in the warrant must be accurate and appropriate to the best of the officer's knowledge.

- E. When information has been obtained from another person (criminal or citizen informant, another police officer or anonymously), the officer completing the 75-175 must include specifically what information was received and how and when the information was obtained.
- F. Information obtained from informants, particularly criminal informants, must be thoroughly examined and documented in order to use in and successfully sustain the probable cause for the warrant and future court challenges. Sworn personnel should strive to include as much information as possible in the probable cause section of the affidavit. Information included should be:

REDACTED – LAW ENFORCEMENT SENSITIVE

6. PROCEDURE FOR THE EXECUTION OF THE SEARCH WARRANT

A. Executing the Search Warrant

- 1. The search warrant must be served during the "daytime" hours (6:00 AM to 10:00 PM) unless a "night-time" search (10:01 PM to 5:59 AM) has been authorized, on the face of the warrant, by a judge or bail commissioner. It must also be served within a specified period of time not to exceed two (2) days from the date of issuance. A judge or bail commissioner may, however, designate a lesser period of time for its execution.
 - a. Search and seizure warrants that have not been served within the specified period of time, (two (2) days from the date of issuance), must be voided.
- 2. Sworn personnel serving the warrant will thoroughly review it for accuracy, specifically concentrating on the exact location and description of property to be searched.
- 3. Sworn personnel are expected to perform the search in a highly professional manner. Officers will not use abusive or derogatory language, threats, or intimidation while serving and executing a search warrant. Weapons should not be displayed unnecessarily after the safety of the officers has been ensured and the premises secured as authorized by Directive 10.1, "Use of Force Involving the Discharge of Firearms." Officers engaging in improper or unprofessional conduct will be subject to disciplinary action.
- 4. Property should never be damaged or destroyed unless the search cannot be conducted without such action. The unnecessary damage or destruction of personal property by police during a search is strictly prohibited and WILL result in severe disciplinary action as well as possible review by the courts.
- 5. When individuals are present while a residential search warrant is being served:
 - a. Officers are required to complete a Vehicle or Pedestrian Investigation Report (75-48A) on all individuals in the immediate vicinity during a search of a residential location which is being conducted based upon a valid search warrant.
 - b. According to the United States Supreme Court, the basis for the search warrant provides the necessary justification to lawfully detain the occupants in the immediate vicinity of a residential search, even if the officers have no reason to suspect criminal activity by the individuals.

c. While the search warrant allows the individuals present to be detained during the search, it does not automatically authorize an officer to frisk the individuals. Officers must have additional reasonable suspicion to believe the individual present during a search warrant has a weapon that could harm the officer. The additional reasonable suspicion must be articulated on the 75-48A when any frisk is conducted.

B. Knock and Announce Rule

- 1. The purpose of the "knock and announce" rule is to prevent violence and physical injury to police and occupants, to protect an occupant's expectation of privacy, to prevent property damage resulting from forced entry and to give the occupants an opportunity to surrender the premises.
- 2. The manner of entry is provided in Rule 2007 of the Pennsylvania Rules of Criminal Procedure and is as follows:
 - a. Without exception, a law enforcement officer executing a search warrant shall, before entry, give or make a reasonable effort to give notice of their identity, authority and purpose to any occupant of the premise specified in the warrant.
 - b. Such officer shall await a response for a reasonable period of time after their announcement before gaining entry into the property.
 - c. If the officer is not admitted after such a reasonable period of time, they may forcibly enter the premises and may use as much physical force to effect entry therein as is necessary to execute the search warrant.

NOTE: The courts have not precisely and uniformly determined the exact period of time that can be considered "reasonable." However, recent court decisions have shown that 30 seconds should be the minimum time police personnel should delay their entry into a property after announcing their presence and purpose.

C. Exceptions to the Knock and Announce Rule

1. While the courts recognize specific exceptions to the Knock and Announce rule, it shall be the policy of the Philadelphia Police Department to knock and announce prior to any warrant service. If any investigator believes that their safety is at risk by knocking and announcing the warrant, the warrant service shall be referred to the SWAT Unit.

D. Warrant Information Card (75-614)

- 1. On every occasion where a search warrant has been obtained, sworn personnel will give to the owner or occupant, a Warrant Information Card (75-614). If there is no one present at the home, leave the Warrant Information Card (75-614) AND the owner/occupant copy of the search warrant in a clearly visible area inside the property.
- 2. The Warrant Information Card (75-614) MUST contain the following information:
 - a. Basic information about the search warrant process AND
 - 1. Name
 - 2. Rank
 - 3. Unit
 - 4. Office Phone Number
 - 5. District/Unit Address of the Commanding Officer of the district/unit that obtained the search warrant.
- 3. Questions or complaints concerning the warrant or search procedure can be directed to the pertinent commanding officer.

E. Seizure of Property

- 1. Seizing officer will perform the following:
 - a. Inventory and record the items seized on all copies of the search warrant. If necessary, reverse carbons and use the backside of the warrant to complete the inventory.
 - b. Complete the warrant in the presence of the person from whom the items were seized or in the presence of at least one witness.
 - c. Give the blue copy of the warrant, with listed items seized, to the person from whom taken or, if no one is present, leave the copy in a conspicuous location.
 - d. If items are seized, request the signature of the person from whom taken or witnesses to the seizure. If they refuse to sign, indicate so on the warrant.
 - e. Place their signature in the appropriate block.
 - f. Prepare a Property Receipt (75-3) and distribute it in accordance with Directive 12.15, "Property Taken into Custody."

NOTE: Even when there is no property seized, a copy of the warrant must still be given to the owner/occupant or left in a conspicuous location along with the Warrant Information Card.

7. PREPARATION OF COMPLAINT OR INCIDENT REPORT (75-48)

A. A Complaint or Incident Report (75-48) will be prepared when a search is needed. Use the same DC number that was issued to the 75-175.

- B. In addition to the exigent circumstances information requested in Section 6-C-3 (where necessary), the 75-48 will also include: (PLEAC 2.7.2)
 - 1. Date and time service was executed/attempted. (PLEAC 2.7.2 a)
 - 2. Name of officer(s) executing/attempting service. (PLEAC 2.7.2 b)
 - 3. Name of person on whom the search warrant was served/executed. (PLEAC 2.7.2 c)
 - 4. Address of service/attempt. (PLEAC 2.7.2 e)
 - 5. Warrant Number.
 - 6. Method of entry (consent, use of force, etc.). (PLEAC 2.7.2 d)
 - 7. Results of search (arrest, seizure of items, negative results). (PLEAC 2.7.2 d)
 - 8. Damage to property (describe in detail).
 - 9. Wrong location when the warrant has been served on the "wrong location" state, "Warrant served on wrong location" and include both the correct and incorrect numerical locations and the name of the owner/occupant of the incorrect location.
 - a. Damage to the property or service of warrants at a "wrong location" must be reported to Police Radio immediately.
 - 10. Whenever a search warrant has been served on a "wrong location," the Commanding Officer of the district/unit that obtained the warrant will be notified. They will notify the pertinent Chief Inspector and prepare a memorandum to the Police Commissioner, sent through the chain of command, describing the entire incident. The Commanding Officer of the district of occurrence will be notified by the Commanding Officer of the district/unit that obtained the warrant.
 - NOTE: A "wrong location" does not exist when all factors indicate correct warrant service at the premises described in the warrant was accomplished. (i.e., simply because the search produced negative results, does not indicate a "wrong location"). However, negative search incidents should be carefully reviewed by the supervisor and by the Commanding Officer when they review the search warrant as per Section 9-B of this directive and take action when necessary.

8. DISTRIBUTION OF SEARCH WARRANT (75-175) AND COMPLAINT OR INCIDENT REPORT (75-48)

A. Before the search warrant is broken down, photocopy the Reports Control (white) copy and note on the bottom "Commanding Officer Central File" and give to the district/unit Commanding Officer that obtained the warrant. (If a 75-51 has been completed, also make a copy for the "Commanding Officer Central File").

C. Voided Warrants

- a. Mark the word "VOID" in large block letters across face of the warrant.
- b. Describe the reason for voidance in "Results of Search" block and include the supervisor's concurring signature.
- c. Record on the Internal Control Log (75-390) that the warrant is void.
- d. Send the "voided" white copy of the 75-175 to Reports Control.

Owner/Occupant/Premise

Copy

- 2. Whenever a search warrant is voided, the immediate supervisor will prepare a memorandum to their Commanding Officer explaining why the warrant was voided.
 - a. This will include search and seizure warrants that have not been served within the specified period of time (two (2) days from the date of issuance).

9. SEARCH WARRANT CONTROL LOG (75-390)

- A. The Search Warrant Control Log (75-390) shall be maintained by Commanding Officers to ensure internal control of search warrants issued by their command.
- B. Commanding Officers shall review this log periodically, and on a monthly basis review each search warrant issued to ensure all legal and departmental guidelines have been carried out.

10. ACQUISITION AND DISTRIBUTION OF THE 75-175

- A. District/Unit Commanding Officers will always ensure that district/unit's DAR code number is placed on the memorandum to the Police Warehouse when requests for 75-175s are made. No warrants will be distributed unless a memorandum with the proper DAR code number is re-sent to the warehouse supervisor.
- B. District/Unit Commanding Officers will always ensure, as per Section 1-C of this directive that the distribution of the search warrants to personnel are completed only in sequential order.

11. ARRESTS IN PRIVATE RESIDENCES

- A. Absent exigent circumstances, the following warrant requirements must be met for a legal arrest in a private residence:
 - 1. An arrest warrant is needed before an individual may be arrested in their place of residence regardless of the grade of the offense.
 - 2. Both an arrest AND a search warrant are needed to enter a residence other than the defendant's in order to search for and arrest the defendant.
 - 3. Both an arrest AND a search warrant are needed to enter any residence, whether owned by the defendant or not, if the purpose of the police entry is to arrest a suspect and search for evidence.

- B. Warrantless arrests and searches are permitted where exigent circumstances exist. However, courts generally review the reasonableness of police actions based upon exigent circumstances on a case-by-case basis and these issues are closely scrutinized. As a basic rule of procedure where time and circumstances permit, an arrest and/or search warrant must be obtained. (PLEAC 1.2.3)
 - 1. Some factors, which courts consider in determining whether exigent circumstances existed, are:
 - a. the reasonable belief that a threat of physical harm to police officers or others exists unless an arrest is made immediately.
 - b. the seriousness of the offense.
 - c. a strong reason to believe that the suspect is on the premises AND committed a crime.
 - d. the likelihood that the suspect will escape.
 - e. a "hot pursuit" of a suspect who flees into a building.
 - f. the manner of entry (i.e., **REDACTED LAW ENFORCEMENT SENSITIVE**).
 - 2. Officers will be required to document the fact that such exigent circumstances existed and may be required to articulate such details through court testimony.
 - 3. EXIGENT CIRCUMSTANCES DO NOT EXIST WHERE OFFICERS CREATE THEIR OWN EMERGENCY. (E.G., IF AN OFFICER PLACES THEMSELVES IN A PLACE WHERE THEY ARE NOT LEGALLY PERMITTED TO BE AND THEY ARE FORCED TO TAKE POLICE ACTION. THE COURTS MAY NOT PROTECT THESE ACTIONS UNDER EXIGENT CIRCUMSTANCES.)
- C. An arrest for any crime committed in the presence of police does not require a warrant regardless of the location in which the arrest is made, provided the arrest occurs immediately.

12. CONSENT TO SEARCH

- A. The consent to search is one of the few legally recognized exceptions, created by the U.S. Supreme Court, permitting law enforcement personnel to search a person or property without a search warrant.
- B. Officers obtaining a consent to search must proceed carefully as a knowing, voluntary, and informed choice by the individual to be searched must be given.
- C. Once consent is given, sworn personnel may seize:
 - 1. Contraband, the fruits of a crime, or other things criminally possessed.

- 2. Property which is or has been used as the means of committing a criminal offense.
- 3. Property, which constitutes evidence of the commission of a criminal offense.
- D. This section guides personnel in the use of the consent to search either a person, place or thing.
- E. Sworn personnel should only use the consent to search when there exists less than the requisite probable cause to conduct a warrantless search or to secure a search warrant.
- F. Consent to search will not be used as a substitute for a valid search warrant. If the officer has probable cause and there are no exigent circumstances, which require an immediate search, they MUST obtain a search warrant.
- G. A supervisor will always be consulted before a consent to search and, unless there are extenuating circumstances, a supervisor (not necessarily from the officer's/investigator's district/unit that is requesting approval) should be physically on location and sign/endorse the Consent to Search Form (75-668).
 - 1. Consent to a STRIP SEARCH MUST be approved, in writing, by the highest-ranking supervisor available in the district/unit.
 - 2. Consent to a BODY CAVITY SEARCH MUST be approved, in writing, by a Lieutenant or higher-ranking supervisor.
 - a. A Consent to Search Form (75-668) and a Complaint or Incident Report (75-48) WILL be completed for these two types of consent searches. Consent to perform strip or body cavity searches will be conducted as prescribed in Section 21.
- H. All consent searches should be in writing using a Consent to Search Form (75-668).

13. REQUIREMENTS FOR A CONSENT TO SEARCH

- A. The courts will uphold a consent to search only when the following conditions have been met:
 - 1. that a statement has been made consenting to the search;
 - 2. that it has been given by the owner or possessor of the premise;
 - 3. by a third party who possesses common authority over or other sufficient relationship to the property or effects to be searched,
 - 4. and the consent is given voluntarily AND without being the result of duress or coercion, either expressed or implied.

- B. Factors, which may suggest to a court that consent was voluntarily given, include but are not limited to:
 - 1. the consenting party was not in police custody at the time of their consent;
 - 2. the consenting party's custodial status was voluntary when consent was given;
 - 3. the consenting party believed police would find no contraband;
 - 4. the consenting party was aware of their right to refuse;
 - 5. the consenting party was informed by police prior to the request for consent what the police were searching for;
 - 6. the consenting party signed a consent to search form prior to the search; and
 - 7. that the consenting party agreed to assist police in conducting the search.
- C. Factors, which may suggest to a court that consent was coerced, include but are not limited to:
 - 1. the presence of abusive or overbearing police actions and procedures;
 - 2. police use of deception or trickery to gain consent to search;
 - 3. statements or actions by police indicating the consenting party was not free to refuse the search;
 - 4. where consent is given by a person already in police custody;
 - 5. where police had blocked or impaired the consenting party's freedom of movement; and
 - 6. where consent was granted but only after it had been refused initially.
- D. In addition to the requirements described in Section 13-A above, officers will ensure they provide the consenting party with the following warnings:
 - 1. that the consenting party has the right to require the police to obtain a search warrant; and
 - 2. that they have the right to refuse to consent to a search.
- E. If the person is in police custody, three (3) additional warnings must be provided:
 - 1. that any items found can and will be confiscated and may be used against them in court:
 - 2. they have the right to consult with an attorney before making a decision to consent; and
 - 3. they have the right to withdraw their consent at any time.
 - **NOTE**: In addition to the factors described in this section, officers should also take into consideration the mental competence of the person granting consent, whether they are under the influence of drugs or alcohol, and their age. The status of a minor alone does not prevent one from giving consent.

14. SCOPE OF THE CONSENT TO SEARCH

- A. The following limitations are placed upon an officer who has been granted a consent to search:
 - 1. An officer may NOT exceed the limits of the consent.
 - a. If consent has been granted to search for a particular object or person, the officer may only search those places where the person or object could be found.
 - 2. Consent may be revoked at any time during the course of the search.
 - a. However, items found before the consent was revoked remain subject to seizure.
 - 3. Sworn personnel should not open locked containers without specific permission from the consenting party.
 - a. This is permission above and beyond the initial consent.

NOTE: A consent search may disclose the basis for an arrest or for the probable cause needed to acquire a search warrant.

15. PROCEDURE FOR CONDUCTING A CONSENT TO SEARCH

- A. The procedures to be followed for conducting a consent to search:
 - 1. A supervisor will always be consulted before a consent to search and, unless there are extenuating circumstances, a supervisor (not necessarily from the officer's/investigator's district/unit that is requesting approval) should be physically on location and sign/endorse the Consent to Search Form (75-668). Consent to a strip or body cavity search requires written approval of a supervisor.

NOTE: The procedures in Section 21 of this directive must be adhered to when conducting strip or body cavity searches.

- 2. Determine the consenting party's authority to truly give consent to search.
- 3. Provide the consenting party with all pertinent warnings as outlined in Section 13-D and E.
- 4. Prepare the Consent to Search Form (75-668) for each request ensuring as much information as possible is completed before presenting it to the consenting party.

- 5. Provide a detailed description of the person or property to be searched and the particular offense under investigation.
- 6. Before the consenting party signs the form, the officer will read the statement they are signing and explain it to them.
- 7. Obtain a witness (may be another officer) to serve the consenting party and to sign the document. Witness must be competent and available to testify.
- 8. Request a signature of the consenting party. If the consent is granted, but the party refuses to sign, note the refusal on the consent form.
- 9. Ensure the witness or another officer accompanies the searching officer throughout the premises. REQUEST THAT THE CONSENTING PARTY ALSO ACCOMPANY THE SEARCHING OFFICER THROUGH THE PREMISES.

16. SEIZURE OF PROPERTY

- A. When property is seized as a result of the search, police will:
 - 1. Strike out the word "nothing" in the Results of Search section of the Consent to Search Form.
 - 2. List the items seized on the Consent to Search Form. Reverse the carbon of Consent to Search Form and use the back if additional space is required.
 - 3. Prepare a Property Receipt (75-3) listing all items seized. If the consenting party refuses to return to the district/unit to complete the Property Receipt, note the refusal on the receipt.
 - 4. Note the Property Receipt number on the Consent to Search Form.
 - 5. Have the consenting party sign the Consent to Search Form on the bottom section below "Results of Search." Explain that their signature indicates that police only seized those items listed. If the party refuses to sign, note the refusal on the form. (This will amount to the consenting party's signature appearing twice on the Consent to Search Form and once on the Property Receipt).
 - 6. Have the witnesses sign the Consent to Search Form just below the consenting party's signature. (This will also amount to the witnesses' signature appearing twice on the Consent to Search Form).
 - 7. Give the carbon copy of the Consent to Search Form to the consenting party, as well as the pertinent copy of the Property Receipt (75-3).

17. NO SEIZURE OF PROPERTY

- C. When an arrested individual is carrying a suitcase, briefcase, footlocker, etc., the luggage may be seized. However, the contents of the luggage are generally not within the immediate control of the arrested individual and therefore, the luggage can only be opened/searched pursuant to the following guidelines:
 - 1. When the arresting officer has probable cause to believe that a suitcase, briefcase, footlocker, etc., may contain contraband or instruments of a crime, the luggage shall be seized, but NOT opened until a search warrant has been properly secured.
 - 2. In all cases where exigent circumstances exist, an immediate search may be made at the time of the arrest. However, the exigent circumstances must be clearly articulated. Exigent circumstances include, but are not limited to the following:
 - a. Immediately dangerous instruments (e.g. explosives).

- b. Definite possibility that evidence may be destroyed or the evidence is perishable (e.g., blood).
- D. When the arresting officer has no reason to believe that the luggage contains contraband or evidence, the luggage shall be seized and:
 - 1. Placed on a Property Receipt (75-3) in accordance with Directive 12.15, "Property Taken into Custody."

A strip search may only be conducted when an individual has been lawfully taken into custody AND sworn personnel can identify specific factors which establish a reasonable suspicion that the individual possesses a weapon or contraband, such as controlled substances, or evidence of a specific crime.
- E. A body cavity search may only be conducted when an individual has been lawfully taken into custody AND sworn personnel have obtained a search warrant thereby establishing probable cause to search for:
 - 1. contraband, the fruits of a crime, or things otherwise criminally possessed; or

H. Definitions

1. <u>Standard Search</u> - the thorough physical examination of an individual taken into custody pursuant to an arrest, a warrant, evidence of a specific crime, or where consent has been given by the individual. This search is used to uncover a weapon or contraband such as controlled substances.

NOTE: The mouth (oral cavity) search is part of the standard search and should be completed when this type of search is to be utilized, if necessary.

- a. The search can consist of the removal of a person's OUTER GARMENTS (i.e., the coat, jacket, sweater, vest, wig, shoes, socks, hat, and handbag or wallet) as well as the grabbing, squeezing or sliding the hands over the remaining clothing to detect a weapon or contraband.
- b. A standard search does not preclude the touching of any part of the person's body, through their clothing, in an attempt to ensure that the person does not possess a weapon or contraband.
- c. Police personnel may also conduct a subsequent standard search on arrested individuals delivered to their custody as outlined in Directives 5.14, "Investigation and Charging Procedure" and Directive 7.8, "Adult Detainees in Police Custody."

The supervisor, or a subordinate supervisor will be present in the area of the search (they need not visually witness the search). - 3) property, which constitutes evidence of the commission of a criminal offense.
- 2. Person to be searched gives written consent.

NOTE: Although a body cavity search is technically authorized by the authority issuing the search warrant, the request for such a warrant will still be approved and authorized, in writing, by a Lieutenant or higher-ranking supervisor.  - b. circumstances of the arrest;
 - c. acts of violence, if any
 - d. discoveries from prior arrests and/or previous searches of the suspect;

It will be the responsibility of the Homicide and SIB Unit commanders/supervisors (captain, lieutenants and sergeants) to obtain, distribute, control, review and file all search warrants that have been assigned for their unit's use. By delegating this responsibility to the supervisors instead of the commanders of the two units expected to use the greatest number of warrants, a more efficient method of tracking can be developed.
- E. Only a supervisor will be able to obtain a package of warrants (packages contain 25) from the warehouse. No more than two packages (50 warrants) will be obtained per visit.
- F. The procedures outlined in this directive and Computer Training Bulletin 95-1 must be strictly followed and commanders/supervisors will become thoroughly familiar with their contents. The Chief Inspector, Office of Professional Responsibility, must approve these requests. When it has been determined by the requesting bureau's Chief Inspector that there is no longer a need for confidentiality, the necessary information concerning all aspects of these warrants must be immediately entered into the computer.

I. Updating the search warrant by computer as required will be the responsibility of the affiant's supervisor/commander. All questions asked on the computer MUST be answered (e.g., Is there a body warrant along with the search warrant? What is the body warrant number?).

(Exception: Office of the District Attorney and Pennsylvania State Police)

NOTE: The first four digits of the DAR code refer to the district/unit, while the last two digits refer to the platoon (e.g., 1st Dist., 5 platoon = 010050).

- 3. Inform the supervisor to accurately count the number of warrants in each package and ensure they are in sequential order.
- 4. Log all warrants in sequential order in the Search Warrant Control Log (75-130).
- C. Homicide/SIU Units' Commander/Supervisor (captain/lieutenant/sergeant) will:

1. Prepare a memorandum noting name, rank, payroll number, and complete six-digit DAR unit/platoon code number as shown below.

NOTE: The memorandum must be from the supervisor of the unit or platoon, not from the Commanding Officer.

SAMPLE: TO: Supervisor, Police Warehouse

FROM: Lieutenant John Doe, Homicide Unit, 600320, Payroll #

SUBJ: REQUEST FOR SEARCH WARRANTS

Obtain or send a subordinate supervisor to obtain the warrants. Log all warrants in sequential order in the Search Warrant Control Log (75-130).

NOTE: All units/platoons in Homicide or SIB must have their own 75-130s.

28. DISTRIBUTING INDIVIDUAL WARRANTS

A. Only a commander/supervisor may distribute a warrant to an officer/investigator (also known as the Affiant). An issuing supervisor WILL NOT be the affiant. Distribution must be done in sequential order.

NOTE: Officers from one district/unit in need of a warrant WILL NOT be denied a warrant because they are not assigned to the district/unit in possession of an available warrant. A warrant will be made available to any officer or investigator in need of one (e.g., Narcotics officers working in Northeast Division will always be able to obtain a warrant from Northeast Detective Division).

- B. Distributing Commander/Supervisor will:
 - 1. Follow the procedures outlined in Computer Training Bulletin 95-1, selecting menu screen number 2 and immediately enter all necessary information requested into the computer.
 - 2. Immediately complete the 75-130.

NOTE: Failure to immediately enter the information requested into the computer will be cause for follow-up review of the status of that warrant by the Reports Control Unit.

29. UPDATING SEARCH WARRANTS

- A. Once a warrant has been issued and either served or voided, it is incumbent upon the receiving officer's/investigators' supervisor to update the warrant by following the procedures in Computer Training Bulletin 95-1, selecting menu number 2 and immediately enter all necessary information requested into the computer.
- B. All fields on the computer screen must be completed except when a warrant has been voided. In these cases, follow the directions in Computer Training Bulletin 95-1 under "Void Procedure."

30. INTERNAL AFFAIRS RESPONSIBILITIES

- A. Only authorized Internal Affairs personnel will have access to Menu Selection #4, "Modify Screen" through the WRNT command on the Police system.
- B. Authorized personnel will adhere to the procedures outlined in their copy of Computer Training Bulletin 95-1 and must answer the question concerning complaints.

31. REPORTS CONTROL RESPONSIBILITIES

- A. Only authorized Reports Control personnel will have access to Menu Screen #5, "Reports Control Update Screen."
- B. Authorized personnel will adhere to the procedures outlined in their copy of Computer Training Bulletin 95-1 and must answer the question concerning the filing of the warrant.
- C. Copies of the warrants will be maintained in accordance with existing policy.
- D. Reports Control, on a weekly basis, will receive a register from the Data Processing Unit, which must be compared against the information available in the computer relating to completed or voided warrants.
- E. Strip/body cavity search 75-48s will be left attached to the copy of the Summary Citation.

EXCEPTION: When there is no Summary Citation, the strip/body cavity search 75-48 will arrive alone (See Section 25-C). Since the DC number on the strip/body cavity search 75-48 should match the DC number of original assignment, both 75-48s will be placed together.

32. AUDITS AND INSPECTIONS RESPONSIBILITES

- A. Will receive, on a weekly basis, a register from the Data Processing Unit relating to completed, voided and delinquent warrants.
- B. Will initiate a follow-up review on the status of the warrant when the district/unit fails to forward relevant copies of the Search Warrant (75-175) to the Reports Control Unit within seven (7) days of execution, being voided, or when there is non-service or no search.

Instructor Cues and Performance Objectives

DOG ENCOUNTERS

DOG ENCOUNTERS

I. Introduction

- A. Fewer people die annually in the United States from dog bites than from lightning strikes.
- B. Training Objectives:
 - Identify and respond to indicators that a dog is present in a location.
 - Failing to anticipate a dog on the premises is a frequent mistake that Officers make.
 - Food/water bowls, leashes chains, worn paths in lawn usually means a dog is present.
 - 3. Notify owner that you are there and tell them to contain their dog.
 - 4. Make noise, shake fence, call to dog to avoid surprises for you or the dog.
 - List indications that a dog may attack.
 - 1. A dog's posture often signifies the dog's intent.
 - Behavior does not always predict a threat.
 - 3. Barking does not always mean a dog is aggressive.
 - Officer's movements may reduce likelihood of an attack.
 - Dogs often react when they think their territory or owner are threatened.
 - Identify tools and methods of avoiding or warding off a dog attack.
 - Officers' body position, tone of voice, and other "tricks" can avoid their being perceived as a threat by the dog.
 - 2. Baton, night stick, ASP, pepper spray tools readily at hand can be used to counter a dog attack.

- 3. When all other means fail to stop the threat, lethal force is justified.
- Identify breed-specific characteristics of dogs commonly trained to fight and/or guard.
 - 1. Any dog can bite under certain conditions.
 - Dogs' behavior depends on how they are trained and socialized.
 - Despite common thinking, no breed is guaranteed to be a threat.
 - Pit Bulls are valued as fighters, protectors and family pets.
 - Rottweilers are known to be antisocial, stubborn and protective.
 - Dobermans often do not growl or show aggression before attacking.
- Know resources available for back-up and/or continued training.
 - 1. Pennsylvania Humane Society
 - American Society for the Prevention of Cruelty to Animals (ASPCA or PSPCA)
 - 3. National Animal Control Association (NACA)
 - 4. Philadelphia Animal Welfare Society (PAWS)
 - 5. Officers with special training in animal handling.

II.DOG ENCOUNTERS

A. The Approach

The failure to anticipate the presence of a dog in a location is the biggest mistake an Officer can make. 30% of all households in the United States have dogs.

Be alert to signs that dogs are present: Look for food and water bowls, dog toys, a worn path in the grass or a leash or chain attached to a tree or other anchor. If possible, try to know the property and pets in advance. Animal Behavior experts agree that simple do's and don't's can reduce the chances of a confrontation:

- Always assume that there is a least one dog on location and let it know you are there.
- Always insist the owner confine the animal.
- Don't approach a dog that seems afraid you may unknowingly provoke an attack.
- Don't back a dog into a corner, or make it feel trapped.

Directive 3.20 Animal Control

 Do not exit your vehicle if there is an unfriendly dog in the area.

A dog's behavior does not always predict a threat. Barking does not always mean a dog is aggressive:

- If the dog is contained, barking tells you that it is protecting it's owner and wants you to know it.
- Most Officers who end up shooting a dog report that the dog was barking or growling, though again they are warning you that you are going to have to take control.
- Barking reflects the dog's territorial and protective instincts.
- Dogs react to movement. Try to keep actions slow and nonthreatening.
- Touching the owner, or appearing to do so, can provoke hostility from the dog.

Most Dogs assume postures that may indicate their attitdes:

- BASELINE posture the dog's head is held high, ears are up but not forward, the tail is down and the mouth is relaxed.
- ALERT posture the head is held high, ears are forward, tail is out behind him, mouth is closed and is standing straight "on his toes".
- DEFENSIVE THREAT posture he lowers his body, his hackles are up, the pupils are dilated, ears are back, corners of the mouth are pulled back (may bare teeth), the tail is tucked between legs and the nose is wrinkled.
- OFFENSIVE THREAT posture hackles are up, cars are forward, corners of the mouth are forward, nose is wrinkled, his tail is up and stiff and he's standing tall on his toes
- SUBMISSIVE posture his tail is down, his body lowered, forchead is smooth, he licks at the mouth of the superior dog, he grovels and the corners of his mouth are back.

The hackles up near the tail, ears down, snarling and growling are good predictors of a dog's likely aggression. There are some do's and don'ts of facing a possibly hostile dog:

- · Keep movement to a minimum
- Stand sideways a person is a smaller threat in profile
- Don't extend your hand to a dog unless you have to, then keep your hand in a fist.
- Keep arms, hands near body
- Use a bite stick it can be put in a dog's mouth to distract

him.

- · Don't stare at dog
- Don't smile or show teeth.
- Back slowly away, eyes toward the dog don't turnm and run
- · Don't be afraid to make a tactical retreat or take cover
- Use your baton or asp as a bite stick, or "feed" it some other object.
- · Call for backup know your animal control resources.
- Use pepper spray if needed it can usually at least slow the dog down.

B. TOOLS

Having the right tools, or knowing how to use ordinary objects, can prevent an attack:

- · Pepper spray
- Noose / snare
- Baton / ASP bear in mind that the act of snapping open the ASP can startle and distract the dog.
- CO2 fire extinguishers spray smells and tastes bad, is cold and creates a disorienting cloud around the dog.

The Force Continuum is the same when dealing with animals.

Officers begin with the least physically harmful means of control then increase force as warranted:

- Calming behavior talk quietly and move slowly
- Commands familiar words firmly delivered may work.
- Isolation without backing the dog into a corner, wrangle it away from other people.
- Chemical (Pepper spray), Electronic (Taser), Sonic (sudden, loud noise), physical repellants (noose, baton)

When an attack is imminent or in progress, and these means have failed, lethal force is the last but only option.

C. PIT BULLS AND LARGE DOGS

Every dog has the potential to bite. No breed is guaranteed to be more or less aggressive than other breeds, despite myths to the contrary. For example:

Pit Bulls:

- Are naturally people friendly
- Will not challenge strangers unless they have not been

Directive 10.1 Discharge of Firearms

Directive 10.2 Directive 10.3 Use of Force properly socialized.

- Are fiercely loyal, tenacious and intelligent.
- · ideal characteristics for training to fight or as a guard dog
- are often great family pets
- must be trained to attack it does not come naturally
- · are often trained to protect people or property
- often wag their tails before, just before or after they attack
- certain postures in a pit bull (tail high, short movements) may signal dominance, not friendliness.

Rottweilers:

- are generally not very social
- don't like to take orders from strangers, or sometimes from their owners
- are to be taken seriously when they growl

Dobermans:

often do not growl or show aggression before attack.

D. PROTECTING YOURSELF

Dogs on their best behavior and well-trained are loving, loyal and protective. However, their instincts can not be ignored. Officer Safety is always the FIRST PRIORITY! Although dogs often attack without warning, as fighting dogs are trained to do, it is essential to recognize animal behaviors and respond appropriately. Just the presence of one or more dogs can intimidate an Officer so much that he or she may overreact. Some simple rules to remember:

- "Be a Tree" Stand still
- Fight back if necessary
- Retreat if necessary
- Turn to your side, stand in profile
- Protect your face and throat
- Brace yourself against something solid if possible
- You are more vulnerable when on the ground, but protect yourself by curling up in the fetal position.
- · Cover your throat and ears with fists.
- Do not expose fingers.

Be prepared:

- Know what you're walking in to and be prepared to respond accordingly.
- Know the history of that address and the animals that live there.

Use lethal force only as last resort.

HL REVIEW

- Use Caution
- · Learn and read dog's body language
- Avoid eye contact
- Stand still
- · Talk to the dog
- Use firm verbal commands
- Allow dog to retreat
- Be prepared
- Use lethal force as a last resort Remember people treat animals like they are members of their family. How would you feel if someone shot your family member?
